Adirondack Expedition

The Adirondack Expedition model has a little more length for added speed slipping through the water.

The Adirondack Expedition features extra storage with a stern hatch, a stern-mounted retractable rudder and accommodates up to 300 lbs.

R5 River Runner

This versatile entry-level river running kayak is equally at home on flat water. The R5 River Runner is a good choice for an all-around kayak on lakes and rivers. It is very stable and can accommodate up to 250 lbs.

Standard features include a paddle, spray skirt and removable tracking skeg.
